

THE ADVENTURES OF CISO ED & CO.®

**PANDEMIC
EDITION**

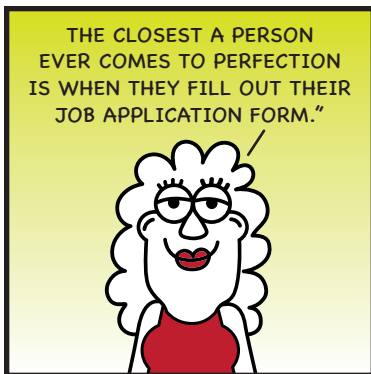

CAST OF CHARACTERS

ED

**CHIEF INFORMATION
SECURITY OFFICER**

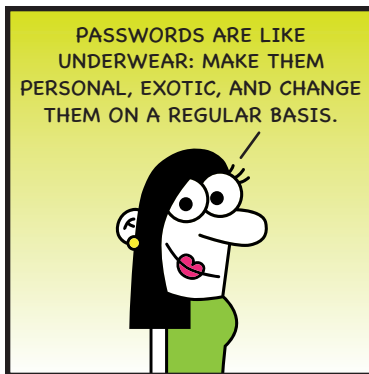

When he took the role of CISO, Ed knew that he would be challenged day in and day out. Cybersecurity has become a whole new ballgame with his current team and he sometimes wonders just how much longer he has before Owen gets phished, Kayla forgets a critical patch, or Donnie downloads malware.

JANET

BIG BOSS

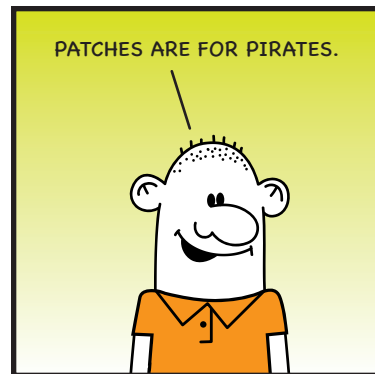

Janet is the Big Boss, the CIO. She has perfected the art of busyness. With all the various areas under her purview, she is often seen moving from one meeting to the other. Her brain works a mile-a-minute and her words flow faster. She has a tight grip on everything, especially CISO Ed's infosec team.

TARA

INFOSEC TEAM MEMBER

Who needs a threat intel feed when you have Tara? She knows every CVE and the devices most susceptible to them. Not only is she a smart cookie, but she doesn't mind flaunting it. Her smartass attitude gets giggles from Owen throughout the day, but doesn't always fly with CISO Ed, especially when there's a code red.

OWEN

INFOSEC TEAM MEMBER

The Tide pod challenge exists for people like Owen. A normal day involves him losing his pen multiple times, only to realize that it is behind his ear. Owen was brought onto the team for his extensive experience finding worms. By the time Ed realized that he had been referring to earthworms in his interview, it was too late.

CAST OF CHARACTERS

SOMETIME THE BEST PART
OF MY JOB IS THAT
THE CHAIR SWIVELS.

KAYLA

INFOSEC TEAM MEMBER

In every group project, there's the team member that floats by without doing anything. That's Kayla. She's got a great smile, but has never really understood the concept of work. Lucky for her, everyone else is too consumed with their own tasks to notice.

I'VE GOT 99 PASSWORDS
BUT 123456 AIN'T ONE OF THEM.
I ADDED A \$ SOMEWHERE TOO.

DONNIE

INFOSEC TEAM MEMBER

Cybersecurity professionals are some of the smartest people on the planet. However, there are some exceptions. Donnie might not be the brightest, but he's got a knack for creative ideas that work (sometimes).

IF AT FIRST YOU DON'T SUCCEED,
TRY DOING WHAT
YOUR *CONSULTANT* TOLD YOU
TO DO THE FIRST TIME.

JASPER

INFOSEC TEAM MEMBER

Jasper is a cybersecurity consultant. His cocky attitude and hubris can rub people the wrong way, especially when he describes himself as "an individual who does precise guess-work based on unreliable data." But does Jasper care? Oh no! He continues to come up with "ground-breaking" solutions. That it's your job to find the problems they will solve, is beside the point.

ONE OF US IS WRONG.
AND THE OTHER ONE IS ME.

JESSICA

MARKETING TEAM MEMBER

Close your eyes and think of the most annoying marketer you have ever worked with. Now imagine them with long brown hair, a perky demeanor, and a know-it-all attitude. That's Jessica. She is supposed to inform CISO Ed's team well in advance of the marketing department launching a new product or spinning up a website page, but does she do it? About 0.7% of the time.
